

In an attempt to enable and empower students with necessary skills, mindset, and tools and also to prepare them to become AI-ready, **CBSE in collaboration with Intel** welcomes you to nominate your **1st PUC & 2nd PUC - Computer Science** students for a **12-days students' bootcamp on 'Building AI Readiness'**.

This bootcamp will provide a deep dive immersive hands-on learning experience for youth, enabling them to start their journey to become AI-ready in a completely online mode.

These sessions are a mix of experiential learning, deep dive into key AI domains, one-on-one mentoring and logically conclude with the development of social impact AI projects.

The students are free to choose any ONE of the below mentioned **tracks**:-

1. CV (Computer Vision)
2. NLP (Natural Language Processing)
3. Data

Benefits to the students:-

1. Exposure to the new age technologies.
2. Certificate of Participation
3. Certificate of Completion
4. Hands-on exposure by building a project
5. Mentor guidance to grow further

Training Details:-
